## You have the capacity to create significant breakthroughs for yourself and your organization.

Is this your Moment of Truth? Are you at an important crossroads?  
Have you come to a key transition point in your career?

- Have you accepted a promotion with a significant increase in responsibility? Do you need to move from technical expert to **leader**; building your capacity and the capacity of your people to achieve **breakthrough** results?
- Have you **accomplished** what you set out to achieve? Have you made huge sacrifices to get where you are...and now seek more meaning in what you do? Are you considering the **legacy** you'll leave behind?
- Have you plateaued in your current role; going through the motions? Are you restless? Are you hankering to re-ignite your **passion** for your work?

Coaching can help.

Coaching is about starting from where you are and stepping forward.

Coaching is about building your capacity to create breakthroughs. Breaking through to new levels of achievement *and* fulfillment.

Dick's core operating premise: Coaching clients aren't broken; don't need to be fixed. They simply need to discover how to access their inherent greatness, their sweet spot: that place where they are in the zone and most powerful (and fulfilled). And, having found it (what we call their 'essence'), clients learn to lead and live from that place.

Dick guides his clients as they unearth the nexus point between their passions, talents, skills, values and purpose...and put that clarity to work.

Through coaching with Dick, you'll be challenged to stretch yourself. You'll uncover limiting belief systems and obstacles that hold you back...and you'll address them head-on. You'll have a partner who will listen without judgment; who will help hold you accountable to do what you say you're going to do.

And you'll clarify what you want, set priorities, build a plan, and move forward to create the future you envision for yourself.

*"I am inspired by people who have a huge hunger for growth. I'm honored to work with those who have the courage to step forward into 'the question' to create new possibilities for themselves."*
